New York, April 28, 1847.

Dr. Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a had cough. It became and Saturdays, at 9 A. M., and closes on same days worse and worse. At last I raised large quanties of dood, had night sweats, and was greatly dehititated and reduced, and did not expect to live. I have only sed your Sarsaparilla a short time, and there has conderful change been wrought in me. I am now abl to walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankfu for these results. Your obedient servant, W.M. RUSSELL, 65 Catherinest.

Dr. Townsend: Dear Six-1 have a little girl seven venus of age, who has been several years afflicted with Fits: we tried almost every thing for her, but without success; at last, although we could find no recommenda-tion in our circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sursuparilla, and are very glad we did, for it not of the Fits, to our great pleasure and surprise. Dr. Townsend's Sarparil is a sovereign and speedy cure for Incipent Consum tion, barrenness, prolapsus Uteri, costiveness, piles leucorrham, and for the general prostration of the female system—no matter whether the resulf inherent cause or causes, produced by irregulari y, illness or accident. Nothing can be more surpris ing than its invigerating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female traine, which is the great cause of barren-

Indeed this medicine s invaluable for all the delicate discuses to which we ien are subject. It braces the whole system, renews permanently the natural energies, by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation, which is the case of most inedicines taken for female weakness and disease.
